

Tasmanian Companion Card application form

About the program

The Tasmanian Companion Card was developed to promote the rights of people with disability to fair ticketing. The Companion Card is for people with a **significant permanent disability**, who will always need a companion to provide attendant care support to attend most community venues and activities.

The Companion Card is a wallet-sized photo ID card. When the Companion Card is shown to an affiliated organisation, the cardholder will receive a second ticket for their companion carer at no charge.

How to apply

Step 1	Be sure that you meet the Eligibility criteria.
Step 2	Be sure you understand the Companion Card Cardholder Terms and Conditions.
Step 3	Complete this application form.
Step 4	Include a colour, passport-sized photograph (see item 6).
Step 5	Ask your service provider or health professional to complete their section of this application form (item 8 or 9).
Step 6	Post the completed application form, photograph, and copies of any recent reports of assessment supporting your application to:
	Companion Card Applications Community Partnerships and Priorities Department of Premier and Cabinet GPO Box 123 Hobart TAS 7001

Please Note: The Companion Card program will not reimburse any costs associated with your application. Completion of an application form does not guarantee a Companion Card will be issued.

Eligibility criteria

To receive a Tasmanian Companion Card, the person must:

1. Be a permanent resident of Australia and reside in Tasmania.
2. Demonstrate that they have a significant, permanent disability.
3. Demonstrate that, due to the impact of the disability, they would be unable to participate in most community activities without attendant care support.
4. Demonstrate the need for this level of attendant care will be lifelong.

The Companion Card is not issued to every person who has a disability.

The card is issued to people who can demonstrate that they would not be able to participate in, or attend, most venues, and activities without attendant care and that this need can be demonstrated to be lifelong.

People on NDIS plans are not automatically eligible for a Companion Card. Each application will be assessed against the Companion Card eligibility criteria.

Companion Cards cannot be issued if the applicant may become independent in the future because of treatment/management, training, recovery, or developmental improvements.

For example:

People who have the below conditions may qualify:

- motor neurone disease, dementia, Alzheimer's, metastatic, terminal cancer, quadriplegia, significant intellectual disability, acquired brain injury, cerebral palsy etc.
- can't self-transfer to and from a wheelchair, dress themselves, communicate etc.
- unable to cut up food, hold drinks, handle money, orient themselves, cross roads etc; and
- have difficult or inappropriate behaviours, are unable to maintain social safety, or have short term memory loss.

Those that would NOT qualify:

- for only social company or re-assurance or for getting to and from events.
- making up for the lack of accessibility of a venue, activity, or event.
- can be independent using aids and equipment i.e., a wheelchair, walking sticks, and visual and hearing aids.
- fibromyalgia, chronic fatigue syndrome and experience pain, fatigue etc (they would most likely not qualify unless they had other significant co-morbidities).
- advanced age but with mobility and faculties; and
- able to develop skills to increase independence, transport training etc.

Attendant care support includes significant assistance with mobility, communication, self-care, or learning, where the use of aids, equipment or alternative strategies does not enable the person to carry out these tasks. The Companion Card will not be issued for conditions with infrequent or unexpected events such as allergic reactions, falls or medical emergencies.
